

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, JULY 19, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 187 fires reported. Eight new large fires were reported, six in the Southwest Area, and two in the Eastern Great Basin Area. Three large fires were contained, one each in the Rocky Mountain, Southwest and the Eastern Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Michigan, Montana, Nebraska, Nevada, New Mexico, Nevada, South Dakota, Utah and Wyoming.

The National Interagency Fire Center (NIFC) has requested Modular Airborne Firefighting Systems (MAFFS) support from the Department of Defense to supplement aerial firefighting assets. The MAFFS units will be stationed in Boise, ID. The requested operational start date is July 21, 2005.

SOUTHWEST AREA INCIDENTS / LARGE FIRES:

FLORIDA, Coronado National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This fire is 11 miles southeast of Green Valley, AZ in brush, timber litter and understory. Evacuations are in effect for Madera Canyon. Spotted Owl, migratory bird habitat and the Mt. Wrightson Wilderness area remain threatened. Spotting was reported.

RIDGE COMPLEX, Kaibab National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. This complex, comprised of the Ridge, Nail, Warm Springs, Jackson, and Oak fires, is in hardwood litter, 15 miles southeast of Jacob Lake, AZ. A power substation is threatened. Crowning and torching were reported on the Nail fire. The Oak, Ridge, Warm Springs and Jackson fires were contained.

EDGE, Tonto National Forest. A Type 2 Incident Management Team (Lineback) is assigned. The Team will also manage the Valentine fire. This fire is 20 miles northeast of Mesa, AZ in short grass and brush. The Amethyst Mine and Four Peaks Wilderness are threatened. A running crown fire developed with an extreme rate of spread.

VALENTINE, Tonto National Forest. This fire is 14 miles north of Apache Junction, AZ in chaparral and grass. Rapid growth due to thunderstorm driven winds was reported.

WAHOO, Gila National Forest. This fire is 21 miles northwest of Winston, NM in timber, brush, hardwood slash and litter. Minimal fire behavior was reported. This fire is being managed using a confinement strategy.

BULL RUN, Coconino National Forest. This fire is 10 miles southeast of Camp Verde, AZ in grass, chaparral and juniper. No new information was reported. This will be the last report unless new information is received.

SH RANCH COMPLEX, Arizona State. This fire is 10 miles east of Bagdad, AZ in short grass. This fire consists of 15 separate lightning caused fires. Difficult access and weather conditions continue to hamper suppression efforts. Active fire behavior and short runs were reported.

OAK, Tonto National Forest. This fire is five miles northwest of Punkin Center, AZ in chaparral and grass. Access is limited due to steep, rugged terrain. No significant fire spread was reported.

INDIAN, Mescalero Agency, Bureau of Indian Affairs. This fire is 23 miles east of Mescalero, NM in mixed conifer, ponderosa pine and grass. The fire made a major run to the southwest. No further information was received.

BRUSH, Gila National Forest. This fire is 25 miles northwest of Silver City, NM in hardwood litter and brush. The fire is in monitor status. Low to moderate fire behavior allowed significant progress in line construction.

DRAGON COMPLEX, Grand Canyon National Park. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Dragon, Spine, Basin and Marble fires is being managed to accomplish resource objectives. This complex is 10 miles north of Grand Canyon Village, AZ in mixed conifer, ponderosa pine, aspen and dead and down fuel. Widforss Trail remains closed. Backing fire with some torching and short range spotting in mixed conifer was reported. The north side of the fire remains active.

INDIAN HILLS, Arizona State. This fire is near Dudleyville, AZ in timber, grass and brush. Evacuations have been lifted. Creeping, smoldering and interior island burning were reported.

BUTTE, Prescott National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 60 miles northwest of Phoenix, AZ in grass, pinyon pine, juniper and brush. Squaw Peak communications site, cabins and a ranch are threatened. Fire was active on three fronts.

J. CANYON, Arizona State. A Type 2 Incident Management Team (Raley) has been ordered. This fire is 15 miles northeast of Wickenburg, AZ in brush and pinyon juniper. Structures are threatened. Extreme rates of spread in heavy dead fuel was reported.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

DAMMERON, Cedar City Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Sexton) will assume command today. This fire is north of Diamond Valley, UT in pinyon, juniper and grass. Immediate threats to Diamond Valley and Dammeron communities have been lifted. Pine Valley Wilderness, St. George watershed, powerlines, wildlife habitat, and archeological sites are threatened. Fire behavior included running, spotting and active crown fire. The fire made significant up canyon runs.

CLOVER, Twin Falls District, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 30 miles south of Hammett, ID in grass and brush. Sage grouse habitat, grazing allotments, range improvements, agricultural and wild horse areas are threatened. Growth was limited to the southeast portion of the fire, largely from a burn out operation.

DRY FORK, Vernal Field Office, Bureau of Land Management. This fire is 12 miles northwest of Vernal, UT in timber, grass and understory. Vernal City watershed and wildlife summer range are threatened. Structure protection is in place. Slope-driven runs were reported.

FRISCO, Cedar City Field Office, Bureau of Land Management. This fire is 10 miles northwest of Milford, UT in pinyon, juniper and grass. Fire activity was minimal with individual torching observed.

HAY, Moab Field Office, Bureau of Land Management. This fire is in pinyon, juniper, spruce and brush. Torching with running was reported. Oil and gas facilities are threatened.

WEST GILSON, Richfield Field Office, Bureau of Land Management. This fire is seven miles north of Leamington, UT in cheatgrass. Threat to sensitive species habitat, power lines, and sheep and cow camps has decreased. Smoldering in the interior of the fire was reported.

SHEEP CREEK, Ashley National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 20 miles southwest of Manila, UT in timber litter and understory. Active ground fire with isolate torching was reported.

SWS = Southwest State, Utah Division of Forestry

WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

WILSON COMPLEX, Nevada Division of Forestry, Northern Region. A Type 2 Incident Management Team (Suwyn) is assigned. This complex, comprised of the Wilson, Petan and Rawhide fires, is 75 miles northwest of Elko, NV in cheatgrass and sagebrush. Significant runs associated with afternoon winds and low relative humidity along with interior flare-ups were reported.

ESMERELDA, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Muir) is assigned. This fire is 46 miles northeast of Battle Mountain, NV in sagebrush and grass. Structure protection is in place for Tuscarora. Trout and sage grouse habitat, and critical deer winter range and livestock forage are threatened. The fire made a significant run to the east.

CONTACT, Elko Field Office, Bureau of Land Management. This fire is 20 miles south of Jackpot, NV in cheatgrass and sagebrush. Rapid rates of spread and a highway closure were reported. No further information was received.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD	ORIGIN OWN

ROCKY MOUNTAIN AREA INCIDENTS / LARGE FIRES:

TRAIL EAST, San Juan Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Blume) is assigned. This fire is nine miles southwest of Hesperus, CO in pinyon and juniper. The fire reported no growth. The Team is also managing the Dwelling and Bragg Fires. Cultural resources are threatened near the Dwelling Fire. The Bragg fire was contained.

CRAIG DRAW, Uncompahgre Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is four miles east of Norwood, CO in hardwood slash, timber litter and understory. Short runs in oakbrush and isolated torching were reported. A burn out operation was successful.

SAGE HEN, Rawlins Field Office (South Zone), Bureau of Land Management. This fire is 25 miles northeast of Jeffrey City, WY in limber pine, juniper, sage and grass. Minimal creeping within the perimeter was reported.

PACK TRAIL, White River Field Office, Bureau of Land Management. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 10 miles west of Meeker, CO in timber litter and brush. High winds pushed the fire to the east resulting in significant fire growth. Active ground fire, group torching and short duration runs were reported.

BKF = Black Hills National Forest

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

BIG HORN, Crow Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Larsen) is assigned. This fire is 44 miles southeast of Billings, MT in timber, juniper and sage. Winds are pushing the fire south into heavy timber. Heavy fuels and steep terrain are impeding control efforts. Torching in heavy timber was observed. Numerous archaeological sites are threatened.

JOHNNY RIDGE, Beaverhead/Deerlodge National Forest. This fire is 20 miles south of Ennis, MT in mixed conifer. The Johnny Ridge Area remains closed. The fire was inactive.

BRANDON COULEE, Charles M. Russell National Wildlife Refuge, Fish and Wildlife Service. This fire is 55 miles south of Malta, MT in sage and grass. The fire is in aerial patrol status.

ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce, hardwood litter and understory. Cabins and outbuildings remain threatened. High relative humidity moderated fire behavior significantly.

FOX CREEK, Kenai-Kodiak Area Forestry, Alaska Division of Forestry. This incident is being managed to accomplish resource objectives. This fire is 35 miles southeast of Soldotna, AK in beetle-killed spruce, hardwoods, timber litter and understory. Smoldering, creeping and backing along the perimeter with isolated torching in the interior were observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD	ORIGIN OWN

FOX CREEK	AK	KKS	36,100	N/A	N/A	148	4	0	3	0	337K	FWS

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE DENNIS RESPONSE, Federal Emergency Management Agency (FEMA). A Unified Command between a Type 1 Incident Management Team (Custer) and a Florida State All-Risk Incident Management Team (Koehler) is in place at Duke Field, Eglin Air Force Base, FL. A Florida State All-Risk Incident Management Team (Hill) is in place at Saufley Field, Pensacola Naval Air Station, FL. A Type 1 Incident Management Team (Feser) is in place at Maxwell Air Force Base, AL. The Teams are managing receiving and distribution centers, points of distribution and Logistical Staging Areas. The teams are working in cooperation with the National Guard, Florida Division of Forestry, the Florida State Emergency Response Team, Alabama Department of Transportation and Emergency Management Agency, Army Corps of Engineers, American Red Cross, and the military. A National Park Service All-Risk Incident Management Team (Panko) is managing the rehabilitation and recovery work at Gulf Islands National Seashore, FL.

OUTLOOK:

Fire Weather Watches: For portions of southeast Idaho for low relative humidity and high winds.
For most of the northern half of Montana for gusty winds and low relative humidity.
For northeastern Nevada for gusty winds and low relative humidity.
For parts of southern Wyoming.
For high winds in the eastern interior and portions of the northern interior of Alaska.

Weather Discussion: An upper high centered over southern Nevada will shift slowly east over the next few days for a gradual increase in thunderstorm activity across the intermountain West. A small disturbance embedded in a westerly flow aloft will move across the Pacific Northwest and Northern Rockies today. In Alaska, a moderately unstable air mass will bring scattered showers to much of the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>Alaska: Mostly cloudy to partly cloudy with scattered showers and isolated thunderstorms.</p>	<p>60s to 70s.</p>	<p>25% to 35% in the northern interior otherwise, 35% to 45%.</p>	<p>Northeast winds increasing to 20 mph with gusts to 25 to 30 mph in the northern interior. West winds 5 to 15 mph.</p>
<p>Southwest: Partly to mostly sunny and hot. Scattered thunderstorms eastern Arizona, New Mexico and southwest Texas. Some dry thunderstorms eastern Arizona and northwest New Mexico.</p>	<p>70 to 95 mountains. 90 to 116 lower elevations.</p>	<p>5 to 20% AZ and western NM. 20 to 35% eastern NM and west TX.</p>	<p>Southwest to northwest 5 to 15 mph with gusts to 25 mph AZ and western NM. South to southeast 10 to 20 mph eastern NM and west TX.</p>
<p>Rocky Mountain Mainly Dry. Isolated dry thunderstorms over southern Colorado.</p>	<p>Upper 90s southwest Colorado, South Dakota with 80s and 90s elsewhere (70s mountains).</p>	<p>5 to 10% western Colorado, central Wyoming. 12 to 20% across the Front Range of Colorado and western South Dakota. 25 to 35% elsewhere.</p>	<p>West 10 to 30 mph in western and southern Wyoming. Southern flow of 10 to 25 mph across eastern plains.</p>
<p>Eastern Great Basin Mostly sunny and warming region-wide.</p>	<p>Idaho, Bridger-Teton: 75 to 88 mountains, 89 to 100 valleys. Northern Utah: 80 to 92 mountains, 92 to 100 valleys. Southern Utah, Arizona Strip: 83 to 97 mountains, 97 to 107 valleys except 105 to 113 deep southwest Utah and AZ Strip.</p>	<p>Idaho, Bridger-Teton: 15 to 25% mountains, 11 to 20% valleys Northern Utah: 18 to 26% mountains, 9 to 23% valleys. Southern Utah, Arizona Strip: 16 to 22% mountains, 7 to 16% valleys.</p>	<p>Idaho, Bridger-Teton: West 8 mph, except 15 to 25 mph gusting to 30 mph in southeast portions of Idaho. Northern Utah: Southwest 15 mph in northwest Utah, Upslope/Upwind 5 to 10 mph elsewhere.</p>
<p>Northern Rockies Partly cloudy and very warm. Isolated thunderstorms near cool front moving into Northern Rockies from the north.</p>	<p>All areas: 85 to 95.</p>	<p>West of Divide – 20 to 30%. East of Divide – 15 to 25%. North Dakota – 30 to 40%.</p>	<p>West of Divide – west 10 to 20 mph. East of Divide: west to northwest 15 to 30 mph and gusty. North Dakota: west to northwest 15 to 25 mph.</p>
<p>Southern California Areas of morning low clouds and fog along the coast, otherwise sunny.</p>	<p>85 to 100 mountains. 95 to 105 valleys. 97 to 107 upper deserts. 105 to 115 lower deserts.</p>	<p>10 to 25% inland 25 to 45% coast.</p>	<p>Variable 5 to 15 mph.</p>

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Sunny, except patchy fog along the coast.	100 to 115 inland valleys, 80s and 90s higher elevations, and 60 to 70s along the coast.	East of the Cascade - Sierra crest: 7 to 15%. Elsewhere inland: 8 to 18%. Along the coast: 40 to 60%.	Southwest to northwest 6 to 12 gusts 27 mph east of the Cascade - Sierra crest, southeast to southwest 4 to 8 gusts 17 mph elsewhere inland, and southwest to northwest 5 to 15 mph along the coast.
Western Great Basin Mostly sunny and hot, with a chance of isolated afternoon thunderstorms over east central Nevada.	North Valleys: 93 to 110. South Valleys: 98 to 116. Mountains: 77 to 97.	North Valleys: 4 to 16%. South Valleys: 5 to 10%. Mountains: 8 to 21%.	Westerly 5 to 15 mph. Afternoon gusts 25 to 35 mph in the northern third of the state, 20 mph in central and south.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft or pilot Card. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

● These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline
- Others

● Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline
- Others

● Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed.

● A copy of the contract must be onboard the aircraft.

● Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

● Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
